

## So who's managing your desktops today?

### **ITR's Network/Desktop Services**

On-site or on-call.

Four hours a week—or forty.

Whatever you need.

- > All desktop/laptop services
- > Server/network tuning
- > Firewall maintenance
- > System upgrades
- > Anti-virus updates

Total system support also available at one low monthly rate per PC.

It's the case of the transient technician. He's there one day. And replaced the next.

If you're tired of being a training site for your IT provider, call ITresources. No revolving door policy here. Just dependable, personalized service from people who really know technology.

With ITresources, you'll see the same technician tomorrow. And the next day. And every day. Until the job is done.

So call what's-his-name and tell him you've found his replacement. ITresources. Let us do IT for you.
